2.2. Label elements	
Labeling according to Regulation (EC) No	o. 1272/2008 [CLP]
Hazard pictograms (CLP)	
	GHS05 GHS07 GHS09
Signal word (CLP)	: Danger
Hazard statements (CLP)	: H302 - Harmful if swallowed H314 - Causes severe skin burns and eye damage H400 - Very toxic to aquatic life
Precautionary statements (CLP)	 P260 - Do not breathe dust, fume, gas, mist, spray, vapors. P264 - Wash Both hands thoroughly after handling. P270 - Do not eat, drink or smoke when using this product. P273 - Avoid release to the environment. P280 - Wear protective clothing, protective gloves. P301+P312 - IF SWALLOWED: Call a POISON CENTER or doctor if you feel unwell. P301+P330+P331 - IF SWALLOWED: Rinse mouth. Do NOT induce vomiting. P303+P361+P353 - IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower.
GHS-US labeling	
Hazard pictograms (GHS-US)	HS05 GHS07 GHS09
Signal word (GHS-US)	: Danger
Hazard statements (GHS-US)	: H302 - Harmful if swallowed
	H314 - Causes severe skin burns and eye damage H318 - Causes serious eye damage H400 - Very toxic to aquatic life
Precautionary statements (GHS-US)	 P260 - Do not breathe dust, fume, gas, mist, spray, vapors. P264 - Wash Both hands thoroughly after handling. P270 - Do not eat, drink or smoke when using this product. P273 - Avoid release to the environment. P280 - Wear protective clothing, protective gloves. P301+P312 - If swallowed: Call a poison center or doctor if you feel unwell P301+P330+P331 - If swallowed: rinse mouth. Do NOT induce vomiting P303+P361+P353 - If on skin (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower P304+P340 - If inhaled: Remove person to fresh air and keep comfortable for breathing P305+P351+P338 - If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing P310 - Immediately call a poison center or doctor P321 - Specific treatment (see Hazard pictograms (CLP) on this label) P333 - Rinse mouth. P363 - Wash contaminated clothing before reuse. P391 - Collect spillage. P405 - Store locked up. P501 - Dispose of contents/container to Comply with applicable regulations

4.1 Description of first aid measures First-aid measures general : If you feel unvell, seek medical advice (show the label where possible). Evacute danger area. First-aid measures after inhibition : When symptoms occur: go into open air and ventilate suspected area. If no breathing give artificial respiration. Get medical advice/attention. First-aid measures after skin contact : Rine catabiously with water for several minutes. First-aid measures after give contact : Rine catabiously with water for several minutes. First-aid measures after give contact : Rine catabiously with water for several minutes. First-aid measures after give contact : Away the harmful i inhaled. May cause respiratory tract initiation. Symptoms/effects after inhalation : May be harmful i inhaled. May cause respiratory tract initiation. Symptoms/effects after ingestion : Harmful i swallowed. A.3. Indicate medical attention and special treatment needed No additional information available Steptical harards arising from the substance or mixture Stepical hazards arising from the substance or explosion; strong oxidizer. Explosion hazard Stable extinguishing media : In case of major fire and large quantiles: Evacuate area. Fight fire remotely due to the first of explosion hazard Stable extinguishing media : In case of major fire and large quantiles: Evacuate area. Fight fire r	SECTION 4: First aid measures	
First aid measures general : If you feel unwell, seek medical adxice (ahow the label where possible). Evacuate danger area. First aid measures after inhalation : When symptome accur go into open air and venitate suspected area. If not breathing give artificial respiration. Get medical advice/attention. First aid measures after site contact : Wash with pienty of scap and water. and scap. Get immediate medical advice/attention. First aid measures after ingestion : Never give anything by mouth to an unconscious person. Rinse mouth out with water. Get medical advice/attention. First aid measures after ingestion : Rinse cautious by with water for several minutes. Symptoms/effects after eye contact : Causes severe sin hourns and eye damage. Symptoms/effects after eye contact : Causes severe sin hourns and eye damage. Symptoms/effects after eye contact : Causes severe sin hourns and eye damage. Symptoms/effects after eyes contact : Causes severe sin hourns and eye damage. Symptoms/effects after eyes contact : Causes severe sin hourns and eye damage. Symptoms/effects after eyes contact : Water spray, dry chemical powder, alcohol-resistant foam, carbon dioxide (CO2). Notactional information : Water spray, dry chemical powder, alcohol-resistant foam, carbon dioxide (CO2). Notactional information : Water spray, dry chemical powder, alcohol-resistant foam, carbon dioxide (CO2).		
Test-aid measures after skin contact ::::::::::::::::::::::::::::::::::::	First-aid measures general	: If you feel unwell, seek medical advice (show the label where possible). Evacuate danger area.
First-aid measures after eye contact : Rinse cautiously with water for several minutes. First-aid measures after ingestion : Never give arything by mouth to an unconscious person. Rinse mouth out with water. Get matcall advice/attention. 4.2. Most important symptoms and effects, both acute and delayed Symptoms/effects after inhalation Symptoms/effects after rely contact : Causes severe skin burns and eye damage. Causes serious eye damage. Symptoms/effects after rely contact : Causes severe skin burns and eye damage. Causes serious eye damage. Symptoms/effects after rely contact : Causes severe skin burns and eye damage. Causes serious eye damage. Symptoms/effects after rely contact : Causes severe skin burns and eye damage. Causes serious eye damage. Symptoms/effects after rely contact : Causes severe skin burns and eye damage. Symptoms/effects after rely contact : Causes severe skin burns and eye damage. Symptoms/effects after rely contact : Causes severe skin burns and eye damage. Symptoms/effects after rely contact : Causes are severe skin burns and eye damage. Symptoms/effects after rely contact : Causes severe skin burns and eye damage. Symptoms/effects after rely contact : Causes severe skin burns and eye damage. Symptoms/effects after rely contact : Water spray of physing media Symptoms/effects after	First-aid measures after inhalation	
First-aid measures after ingestion Never give anything by mouth to an unconscious person. Rinse mouth out with water. Get medical advice/attention. 4.2. Most important symptoms and effects, both acute and delayed Symptoms/effects after inholation May be harmful if inhiad. May cause respiratory tract irritation. Symptoms/effects after eye contact Causes severe skin burns and eye damage. Symptoms/effects after eye contact Causes severe skin burns and eye damage. 3.1. Indication of any immediate medical attention and special treatment needed No additional information available Strict Division for any immediate medical attention and special treatment needed No additional information available Strict Division fragmedia Water spray. dry chemical powder, alcohol-resistant foam, carbon dioxide (CO2). Unsuitable extinguishing media Do not use a heavy water stram. Strict Division fragmedia May cause fire or explosion; strong oxidizer. Extinguishing media In case of major fire and large quantities: Evacuate area. Fight fire remotely due to the risk of explosion hazad In case of major fire and large quantities: Evacuate area. Fight fire remotely due to the risk of explosion. Use water spray or fog tor cooling exposed containers.	First-aid measures after skin contact	: Wash with plenty of soap and water. and soap. Get immediate medical advice/attention.
4.2. Modeling the modeling and effects, both acute and delayed Symptoms/effects after inhalation : May be harmful if inhaled. May cause respiratory tract inflation. Symptoms/effects after inhalation : May be harmful if inhaled. May cause respiratory tract inflation. Symptoms/effects after injection : Causes severe skin burns and eye damage. Symptoms/effects after injection : Harmful if swallowed. 4.3. Indication of any immediate medical attention and special treatment needed No additional information available SECTION 5: Firefighting media : Water spray. dry chemical powder, alcohol-resistant foam, carbon dioxide (CO2). Unsuitable exitinguishing media : Do not use a heavy water stream. 5.2. Special hazards arising from the substance or mixture	First-aid measures after eye contact	: Rinse cautiously with water for several minutes.
Symptoms/effects after inhalation I May be harmful if inhalad. May cause respiratory tract irritation. Symptoms/effects after sy contact I Causes severe skin burms and eye damage. Causes serious eye damage. Symptoms/effects after sy contact I Causes severe skin burms and eye damage. Causes serious eye damage. Symptoms/effects after sy contact I Causes are eyer exin burms and eye damage. Causes serious eye damage. Symptoms/effects after sy contact I Causes are eyer exin burms and eye damage. Causes serious eye damage. Symptoms/effects after sy contact I Causes are eyer exin burms and eye damage. Causes serious eye damage. Symptoms/effects after sy contact I Causes are eyer exin burns and eye damage. Symptoms/effects after sy contact I Causes are eyer exin burns and eye damage. Symptoms/effects after sy contact I Water spray. dy chemical powder, alcohol-resistant foam, carbon dioxide (CO2). Unsuitable exinguishing media I D on to use a heavy water stream. Symptoms/effects after information and special treatment needed I May cause fire or explosion; strong oxidizer. Section hazard I May cause fire or explosion; strong oxidizer. Settor firefighters I heat may build pressure, rupturing closed containers, spreading fire and increasing risk of burns and injuries. Reactivity I heat may build pressure, rupturing closed containers, Exercise caution wh	First-aid measures after ingestion	
Symptoms/effects after spin contact : Causes severe skin burns and eye damage. Symptoms/effects after region : Causes severe skin burns and eye damage. Causes serious eye damage. Symptoms/effects after region : Harmful its wallowed. 4.3. Indication of any immediate medical attention and special treatment needed No additional information available SECTION 5: Firefighting media : Water spray. dry chemical powder, alcohol-resistant foam, carbon dioxide (CO2). Unsuitable extinguishing media : Water spray. dry chemical powder, alcohol-resistant foam, carbon dioxide (CO2). Unsuitable extinguishing media : Do not use a heavy water stream. 5.2. Special hazards arising from the substance or mature Fire hazard : May cause fire or explosion; strong oxidizer. Explosion hazard : Heat may build pressure, rupturing closed containers, spreading fire and increasing risk of burns and injuries. Reactivity : Thermal decomposition generates : Corrosive vapors. 5.3. Advice for firefighters Firefighting instructions : In case of major fire and large quantities: Evacuate area. Fight fire remotely due to the risk of explosion. Juse water spray or fog for cooling exposed containers. Exercise caution when fighting any chemical fire. Prevent fire-fighting water from entering environment. Protection during firefighting : Do not enter fire area without proper protective equipment, including respiratory protection. ESECTION 6: Accidental release measures 6.1. Personal precautions, protective equipment and emergency procedures General measures : No open flames. No smoking. 6.1. For non-emergency personnel Emergency procedures : Avoid breathing vapors, mist, or gas. Execuse unnecessary personnel. Use personal protective equipment Avoid breathing vapors, mist, or gas. Ensure adequate ventilation. Evacuate personnel to sale area. 6.2. Environmental precautions Freedetion equipment and cleaning up Freedetion equipment fire area. 6.2. Environmental precautions Freedetion is severes and public waters. Do not allow te en	4.2. Most important symptoms and effect	s, both acute and delayed
Symptoms/effects after eye contact : Causes severe skin burns and eye damage. Causes serious eye damage. Symptoms/effects after ingestion : Harmful If swallowed. 4.3. Indication of any immediate medical attention and special treatment needed No additional information available SECTION 5: Firefighting media Suitable extinguishing media Su	Symptoms/effects after inhalation	: May be harmful if inhaled. May cause respiratory tract irritation.
Symptoms/effects after ingestion : Harmful if swallowed. 4.3. Indication of any immediate medical attention and special treatment needed No additional information available SECTION 5: Firefighting media Suitable extinguishing media S.1. Extinguishing media S.2. Special hazards arising from the substance or mixture Fire hazard : May cause fire or explosion; strong oxidizer. Explosion hazard : Heat may build pressure, rupturing closed containers, spreading fire and increasing risk of burns and injuries. Reactivity : Thermail decomposition generates : Corrosive vapors. 5.3. Advice for firefighters Firefighting instructions : In case of major fire and large quantities: Evacuate area. Fight fire remotely due to the risk of explosion. Use water spray or fog for cooling exposed containers. Exercise caution when fighting any chemical fire. Prevent fire-fighting water from entering environment. Protection during firefighting : D on ot enter fire area without proper protective equipment, including respiratory protection. Sectron 6: Accidental release measures : No open filames. No smoking. 6.1.1. For non-emergency personnel : No open filames. No smoking. 6.1.1. For non-emergency responders : Avoid breathing vapors, mist, or gas. Ensure adequate ventiliation. Evacuate personnal protective equipment.	Symptoms/effects after skin contact	: Causes severe skin burns and eye damage.
4.3. Indication of any immediate medical attention and special treatment needed No additional information available SECTION 5: Firefighting media Subable extinguishing media Subable extinguishing media : Do not use a heavy water stream. 5.2. Special hazards arising from the substance or mixture Fire hazard : Explosion hazard : Heat may build pressure, rupturing closed containers, spreading fire and increasing risk of burns and injuries. Reactivity : 5.3. Advice for firefighters Firefighting instructions : : In case of major fire and large quantities: Evacuate area. Fight fire remotely due to the risk of explosion. Use water spray or tog for cooling exposed containers. Exercise caution when fighting any chemical fire. Prevent fire-fighting water from entering environment. Protection during firefighting : Do not enter fire area without proper protective equipment, including respiratory protection. SECTION 6: Acctidental release measures : No open flames. No smoking. 6.1. For non-emergency personnel Equip cleanup crew with proper protection. Emergency procedures : Avoid breathing vapors, mist, or gas. Evacuate unnecessary personnel. Use personal protective equipment<	Symptoms/effects after eye contact	: Causes severe skin burns and eye damage. Causes serious eye damage.
No additional information available SECTION 5: Firefighting media Suitable extinguishing media Suitable extinguishing media Suitable extinguishing media Suitable extinguishing media Do not use a heavy water stream. S. Special hazards arising from the substance or mixture Fire hazard A Water spray. dry chemical powder, alcohol-resistant foam, carbon dioxide (CO2). Special hazards arising from the substance or mixture Fire hazard A Water stream, uput ring closed containers, spreading fire and increasing risk of burns and injuries. Reactivity Thermal decomposition generates: Corrosive vapors. S. Advice for firefighters Firefighting instructions I n case of major fire and large quantities: Evacuate area. Fight fire remotely due to the risk of explosion. Use water spray or fog for cooling exposed containers. Exercise caution when fighting any chemical firefighting water from entering environment. according to Regulation (EC) No. 1907/2006 (REACH) with its amendment Regulation (EU) 2015/830 and according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

6.4. **Reference to other sections** See Heading 8. Exposure controls and personal protection. SECTION 7: Handling and storage 7.1. Precautions for safe handling Additional hazards when processed : Hazardous waste due to potential risk of explosion. Precautions for safe handling : Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work. Provide good ventilation in process area to prevent formation of vapor. Avoid contact during pregnancy/while nursing. Avoid breathing dust, mist or spray. Avoid contact with skin and eyes. Avoid inhalation of vapour or mist. Hygiene measures : Handle in accordance with good industrial hygiene and safety practice. Wash hands before breaks and at the end of workday. Do not eat, drink or smoke when using this product. Wash Both hands thoroughly after handling. 7.2. Conditions for safe storage, including any incompatibilities Technical measures : Keep container tightly closed in a cool, dry and well-ventilated place. Store at room temperature away from light and moisture. Storage conditions ÷ Incompatible products : Strong bases. Strong acids. Incompatible materials : Heat sources. Combustible materials. Sources of ignition. Direct sunlight.

7.3. Specific end use(s)

No additional information available

Exposure controls

SECTION 8: Exposure controls/personal protection				
8.1. Control parameters				
AMMONIUM DEUTEROXIDE	(D5, 99%; 15N, 98%) 6 N IN D2O			
Italy - Portugal - USA ACGIH	ACGIH TWA (ppm)	25.00000000 ppm Upper Respiratory Tract irritation. Eye damage. USA. ACGIH Threshold Limit Values (TLV)		
Italy - Portugal - USA ACGIH	ACGIH STEL (ppm)	35 ppm Upper Respiratory Tract irritation. Eye damage. USA. ACGIH Threshold Limit Values (TLV)		
USA NIOSH	NIOSH REL (TWA) (mg/m ³)	18 mg/m ³ Often used in an aqueous solution. USA. NIOSH Recommended Exposure Limits		
USA NIOSH	NIOSH REL (TWA) (ppm)	25 ppm Often used in an aqueous solution. USA. NIOSH Recommended Exposure Limits		
USA NIOSH	NIOSH REL (STEL) (mg/m ³)	27 mg/m ³ Often used in an aqueous solution. USA. NIOSH Recommended Exposure Limits		
USA NIOSH	NIOSH REL (STEL) (ppm)	35 ppm Often used in an aqueous solution. USA. NIOSH Recommended Exposure Limits		

0.2. Exposure controls	
Appropriate engineering controls	: Handle in accordance with good industrial hygiene and safety practice. Wash hands before breaks and at the end of workday.
Personal protective equipment	: Gloves. Protective clothing. Protective goggles. Self-contained breathing apparatus. Wear fire/flame resistant/retardant clothing. Avoid all unnecessary exposure.
Materials for protective clothing	: Wear suitable protective clothing and gloves.
Hand protection	: Wear suitable protective clothing and gloves.
Eye protection	: Chemical goggles or face shield. Wear safety glasses with side shields (or goggles) and a face shield.
Skin and body protection	 Choose body protection according to the amount and concentration of the dangerous substance at the work place. Wear suitable protective clothing.
Respiratory protection	: When appropriate, use NIOSH/CEN approved respirator. Wear appropriate mask.
Environmental exposure controls	: Prevent further leakage or spillage if safe to do so. Do not let product enter drains.
Other information	: Do not eat, drink or smoke during use.

SECTION 9: Physical and chemical properties

9.1.	Information on basic physical and chemical properties
The propert	ties listed below are for the solvent, the main component of this mixture.

Physical state : Liquid

82

Safety Data Sheet

according to Regulation (EC) No. 1907/2006 (REACH) with its amendment Regulation (EU) 2015/830 and according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

Appearance	: Liquid
Color	: Colorless
Odor	: Characteristic
Odor threshold	: 0.03 - 0.05 ppm Ammonia
рН	: at 20 °C (68 °F) - Strongly alkaline
Relative evaporation rate (butyl acetate=1)	: No data available
Melting point	: -72 °C
Freezing point	: No data available
Boiling point	: 90 °C (32 °F)
Flash point	: No data available
Auto-ignition temperature	: No data available
Decomposition temperature	: No data available
Flammability (solid, gas)	: Non flammable
Vapor pressure	: 635 hPa at 20 °C (68 °F)
Relative vapor density at 20 °C	: No data available
Relative density	: No data available
Specific gravity / density	: 0.9 g/ml at 20 °C (68 °F)
Solubility	: Water: at 20 °C (68 °F) - Soluble
Log Pow	: -1.38 (experimental) (anhydous substance) Bioaccumulation is not expected.
Log Kow	: No data available
Viscosity, kinematic	: No data available
Viscosity, dynamic	: No data available
Explosive properties	: No data available
Oxidizing properties	: No data available
Explosion limits	: 0 (15.4 - 33.6) vol % (V)

9.2. Other information

No additional information available

SECTION 10: Stability and reactivity

10.1. Reactivity

Thermal decomposition generates : Corrosive vapors.

Chemical stability 10.2.

Stable if stored under recommended conditions.

10.3. Possibility of hazardous reactions

A risk of explosion and/or of toxic gas formation exists with the following substances: Oxidizing agents, Phosgene, Oxides of phosphorus, Mercury, acids, Nitric acid, Oxygen, sulfor dioxide, hydrogen sulfide, silver compounds, nitrogen oxides, nitrogen trychloride, hydrogen peroxide, silver, Lead, Zinc, Heavy metals, Heavy metal salts, strong alkalis, Acrolein, antimony hydride, Boron, hydrogen bromide, chlorates, Hydrogen chloride gas, chromium (VI) oxide, chromyl chloride, dimethylsulfate, Ethylene oxide, Hydrogen fluoride, halogens, halogen-halogen compounds, halogen oxides, carbon dioxide, acids.

10.4. Conditions to avoid

Direct sunlight. Heat. Sparks. Overheating. Open flame. Extremely high or low temperatures.

Incompatible materials 10.5.

Strong acids. Strong bases. copper. Iron. zinc.

10.6 Hazardous decomposition products

J.o. Hazardous decomposition products		
Aluminum. Lead. Copper. metals. metal alloys. Nic	kel. Silver/silver oxides. Zinc.	
SECTION 11: Toxicological informatio	n	
11.1. Information on toxicological effects		
Acute toxicity :	Oral: Harmful if swallowed.	
AMMONIUM DEUTEROXIDE (D5, 99%; 15N, 98	%) 6 N IN D2O	
ATE CLP (oral)	500.000 mg/kg body weight	
LDLO human	43 mg/kg (29% solution) (RTECS) Symptoms: gastric pain, Bloody vomiting. If ingested, severe burns of the mouth and throat, as well as a danger of perforation of the esophagus and the stomach.	
Skin corrosion/irritation :	Skin - Rabbit - Result: Severe irritations (29% solution) (RTECS) Dermatitis Necrosis Mixture causes burns. pH: at 20 °C (68 °F) - Strongly alkaline	

Safety Data Sheet according to Regulation (EC) No. 1907/2006 (REACH) with its amendment Regulation (EU) 2015/830 and according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

Serious eye damage/irritation	:	Causes serious eye damage.
		pH: at 20 °C (68 °F) - Strongly alkaline
Respiratory or skin sensitization	:	Guinea pig Result: Does not cause skin sensitisation. (anhydrous substance) (IUCLID)
Germ cell mutagenicity	:	Genotoxicity in vitro - Ames test - S. thyphimurium. Result: Negative. (anhydrous substance) (IUCLID) Ames test. Escherichia coli. Result: Negative. (anhydrous substance) (IUCLID)
Carcinogenicity	:	Not classified
		Based on available data, the classification criteria are not met
Reproductive toxicity	:	Not available
		Based on available data, the classification criteria are not met
Specific target organ toxicity - single exposure	:	Mixture may cause respiratory irritation.
Specific target organ toxicity – repeated	:	Not classified
exposure		Based on available data, the classification criteria are not met
Aspiration hazard	:	Not classified
		Based on available data, the classification criteria are not met
Potential Adverse human health effects and symptoms	:	Systemic effects: Nausea. collapse. Shock. Shortness of breath. Unconsciousness. This information is based on our current knowledge and is intended to describe the product for the purposes of health, safety and environmental requirements only. It should not therefore be construed as guaranteeing any specific property of the product.
Symptoms/effects after inhalation	:	May be harmful if inhaled. May cause respiratory tract irritation.
Symptoms/effects after skin contact	:	Causes severe skin burns and eye damage.
Symptoms/effects after eye contact	:	Causes severe skin burns and eye damage. Causes serious eye damage.
Symptoms/effects after ingestion	:	Harmful if swallowed.

SECTION 12: Ecological information		
12.1. Toxicity		
Ecology - general	: Very toxic to aquatic life.	
Ecology - water	: Very toxic to aquatic life. Toxic to aquatic life with long lasting effects.	
AMMONIUM DEUTEROXIDE (D5, 99%; 15	N, 98%) 6 N IN D2O	
LC50 fish 1	0.53 mg/l Oncorhynchus mykiss (rainbow trout) - 96 h (anhydrous substance) (Lit.)	
EC50 Daphnia 1	24 mg/l Daphnia magna (Water flea) - 48 h (anhydrous substance) (Lit.)	
EC50 other aquatic organisms 1	2 mg/l Photobacterium phosphoreum - 5 min (anhydrous substance) (Lit.)	

12.2. Persistence and degradability		
AMMONIUM DEUTEROXIDE (D5, 99%; 15N, 98%) 6 N IN D2O		
Persistence and degradability	May cause long-term adverse effects in the environment. Not readily biodegradable according to results of appropriate tests.	
12.3. Bioaccumulative potential		
AMMONIUM DEUTEROXIDE (D5, 99%; 15N, 98	%) 6 N IN D2O	
Log Pow	-1.38 (experimental) (anhydous substance) Bioaccumulation is not expected.	
Bioaccumulative potential	Biological effects: Harmful effect due to pH shift. Forms toxic mixtures in water, dilution measures notwithstanding. Further information on ecology. Discharge into the environment must be avoided.	
12.4. Mobility in soil		
AMMONIUM DEUTEROXIDE (D5, 99%; 15N, 98	%) 6 N IN D2O	
Ecology - soil	Not available.	
12.5. Results of PBT and vPvB assessment		
No additional information available		
12.6. Other adverse effects		
Other adverse effects	Not available.	
Other information :	Avoid release to the environment.	
SECTION 13: Disposal considerations		
13.1. Waste treatment methods		
Regional legislation (waste)	Waste materials should be disposed of under conditions which meet Federal, State, and local environmental control regulations.	

Safety Data Sheet according to Regulation (EC) No. 1907/2006 (REACH) with its amendment Regulation (EU) 2015/830 and according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

26, 2012 / Rules and Regulations	
Product/Packaging disposal recommendations	: Dispose of contents/container to Comply with local regulations for disposal. Dispose in a safe manner in accordance with local/national regulations.
Additional information	: Hazardous waste due to potential risk of explosion.
Ecology - waste materials	: Avoid release to the environment.
SECTION 14: Transport information	
In accordance with ADR / RID / IMDG / IATA / A	DN
14.1. UN number	
UN-No.(DOT)	: 2672
DOT NA no.	UN2672
14.2. UN proper shipping name	
Proper Shipping Name (DOT)	: Ammonia solutions
	relative density between 0.880 and 0.957 at 15 degrees C in water, with more than 10 percent but not more than 35 percent ammonia
Class (DOT)	: 8 - Class 8 - Corrosive material 49 CFR 173.136
Hazard labels (DOT)	: 8 - Corrosive
	CORROSIVE 8
Packing group (DOT)	: III - Minor Danger
DOT Special Provisions (49 CFR 172.102)	 IB3 - Authorized IBCs: Metal (31A, 31B and 31N); Rigid plastics (31H1 and 31H2); Composite (31HZ1 and 31HA2, 31HB2, 31HN2, 31HD2 and 31HH2). Additional Requirement: Only liquids with a vapor pressure less than or equal to 110 kPa at 50 C (1.1 bar at 122 F), or 130 kPa at 55 C (1.3 bar at 131 F) are authorized, except for UN2672 (also see Special Provision IP8 in Table 2 for UN2672). IP8 - Ammonia solutions may be transported in rigid or composite plastic IBCs (31H1, 31H2 and 31HZ1) that have successfully passed, without leakage or permanent deformation, the hydrostatic test specified in 178.814 of this subchapter at a test pressure that is not less than 1.5 times the vapor pressure of the contents at 55 C (131 F). T7 - 4 178.274(d)(2) Normal
DOT Packaging Exceptions (49 CFR 173.xxx)	: 154
DOT Packaging Non Bulk (49 CFR 173.xxx)	: 203
DOT Packaging Bulk (49 CFR 173.xxx)	: 241
14.3. Additional information Other information	: No supplementary information available.
Special transport precautions	: Not dangerous goods.
Overland transport	
Packing group (ADR)	: III

Safety Data Sheet

according to Regulation (EC) No. 1907/2006 (REACH) with its amendment Regulation (EU) 2015/830 and according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

Excepted quantities (ADR)	: E1
Transport by sea	
DOT Vessel Stowage Location	: A - The material may be stowed "on deck" or "under deck" on a cargo vessel and on a passenger vessel.
DOT Vessel Stowage Other	: 40 - Stow "clear of living quarters",52 - Stow "separated from" acids,85 - Under deck stowage must be in mechanically ventilated space
MFAG-No	: 154
Air transport	
DOT Quantity Limitations Passenger aircraft/rail (49 CFR 173.27)	: 5L
DOT Quantity Limitations Cargo aircraft only (49 CFR 175.75)	: 60 L
Civil Aeronautics Law	: Corrosive substances
14.4. Environmental hazards	
Dangerous for the environment	

Other information	: No supplementary information available.
14.5. Special precautions for user	
Special transport precautions	: Not dangerous goods.

14.6. Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code

Not applicable

SECTION 15: Regulatory information		
15.1. US Federal regulations		
AMMONIUM DEUTEROXIDE (D5, 99%; 15N, 98%) 6 N IN D2O		
Listed on the United States TSCA (Toxic Substances Control Act) inventory		
SARA Section 311/312 Hazard Classes	Immediate (acute) health hazard	
SARA Section 313 - Emission Reporting	Subject to reporting requirements of United States SARA Section 313	

15.2. International regulations CANADA AMMONIUM DEUTEROXIDE (D5, 99%; 15N, 98%) 6 N IN D2O Listed on the Canadian DSL (Domestic Substances List)

15.2.1. National regulations

No additional information available

15.3. US State regulations

AMMONIUM DEUTEROXIDE (D5, 99%; 15N, 98%) 6 N IN D2O()	
U.S California - Proposition 65 - Carcinogens List	No
U.S California - Proposition 65 - Developmental Toxicity	No
U.S California - Proposition 65 - Reproductive Toxicity - Female	No
U.S California - Proposition 65 - Reproductive Toxicity - Male	No
State or local regulations	U.S Massachusetts - Right To Know List U.S Pennsylvania - RTK (Right to Know) List U.S New Jersey - Right to Know Hazardous Substance List

Safety Data Sheet according to Regulation (EC) No. 1907/2006 (REACH) with its amendment Regulation (EU) 2015/830 and according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

SECTION 16: Other information	
Data sources	REGULATION (EC) No 1272/2008 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of 16 December 2008 on classification, labeling and packaging of substances and mixtures, amending and repealing Directives 67/548/EEC and 1999/45/EC, and amending Regulation (EC) No 1907/2006.
Training advice	: Provide adequate information, instruction and training for operators.
Other information	This product is not radioactive. The data given for this product are those of the corresponding unlabeled compound, unless specifically indicated otherwise. Health and safety data for labeled compounds are generally not available, but are assumed to be similar or identical to the corresponding unlabeled compound. None.

Full text of R-, H- and EUH-phrases:

Acute Tox. 4 (Oral)	Acute toxicity (oral) Category 4
Aquatic Acute 1	Hazardous to the aquatic environment - Acute Hazard Category 1
Eye Dam. 1	Serious eye damage/eye irritation Category 1
Skin Corr. 1A	Skin corrosion/irritation Category 1A
H302	Harmful if swallowed
H314	Causes severe skin burns and eye damage
H318	Causes serious eye damage
H400	Very toxic to aquatic life
R22	Harmful if swallowed
R35	Causes severe burns
R41	Risk of serious damage to eyes
R50	Very toxic to aquatic organisms
С	Corrosive
Ν	Dangerous for the environment
Xi	Irritant
Xn	Harmful

NFPA health hazard	: 3 - Materials that, under emergency conditions, can cause serious or permanent injury.
NFPA fire hazard	 O - Materials that will not burn under typical fire conditions, including intrinsically noncombustible materials such as concrete, stone, and sand.
NFPA reactivity	: 0 - Material that in themselves are normally stable, even under fire conditions.
Hazard Rating	
Health	: 3 Serious Hazard - Major injury likely unless prompt action is taken and medical treatment is given

Flammability	
Physical	

given : 0 Minimal Hazard

: 0 Minimal Hazard

CIL Mixture SDS
